19      drought period after fishery, water quality, and  
20      other flow and operational requirements imposed by  
21      terms and conditions existing in licenses, permits,  
22      and other agreements pertaining to the Central Val-  
23      ley Project under applicable State or Federal law ex-  
24      isting on October 30, 1992, have been met. To the

6 and

7 (C) by amending paragraph (2)(C) to read:

8 “(C) If by March 15th of any year the  
9 quantity of Central Valley Project water fore-

12 the Central Valley Project is below 75 percent  
13 of the total quantity of water to be made avail-  
14 able under said contracts, the quantity of Cen-  
15 tral Valley Project yield dedicated and managed  
16 for that year under this paragraph shall be re-  
17 duced by 25 percent.”.

4 (a) **PURPOSE.**—The purpose of this section is to im-  
5 plement a program of increased water releases from  
6 Friant Dam to address environmental, habitat, fisheries,  
7 and water quality concerns on the San Joaquin River from  
8 Friant Dam to Sack Dam.

9 (b) **DEFINITIONS.**—For the purposes of this section:

10 (1) **RESTORATION FLOWS.**—The term “Res-  
11 toration Flows” means the minimum flow of 50  
12 cubic feet per second at Sack Dam, located approxi-  
13 mately 85 river miles downstream from Friant Dam.

14 (2) **SECRETARY.**—The term “Secretary” means  
15 the Secretary of the Interior.

16 (3) **WATER YEAR.**—The term “Water Year”  
17 means October 1 through the following September  
18 30.

19 (c) **CRITICAL WATER YEAR.**—For purposes of this  
20 section a Critical Water Year is when the total unimpaired  
21 runoff at Friant Dam is less than 400,000 acre-feet.

22 (d) **RELEASE OF RESTORATION FLOWS.**—In each  
23 Water Year, commencing in the Water Year starting on  
24 October 1, 2012, the Secretary—

1           (1) shall modify Friant Dam operations so as  
2           to release the Restoration Flows for that Water  
3           Year, except in any critical water year;

4           (2) shall ensure that the release of Restoration  
5           Flows are maintained at the levels prescribed by this  
6           section;

7           (3) shall release the Restoration Flows in a  
8           manner that improves the fishery in the San Joa-  
9           quin River below Friant Dam, but upstream of  
10          Gravelly Ford in existence as of the date of the en-  
11          actment of this section, and the associated riparian  
12          habitat, while improving water quality in the San  
13          Joaquin River at Vernalis and achieving such other  
14          environmental benefits as the Secretary may reason-  
15          ably determine; and

16          (4) may, without limiting the actions required  
17          under paragraphs (1) through (3) and subject to  
18          subsection (m), use the Restoration Flows to en-  
19          hance or restore a warm water fishery if the Sec-  
20          retary determines that it is reasonable, prudent, and  
21          feasible to do so.

22          (e) EFFECT ON EXISTING OBLIGATIONS.—Except as  
23          described in subsection (f), nothing in this section shall  
24          modify any existing obligation of the United States under  
25          Federal Reclamation law to operate the Central Valley

1 Project in conformity with State law and existing or to  
2 be renewed water service, repayment, purchase, or ex-  
3 change contracts.

4 (f) RECOVERY OF RESTORATION FLOWS.—Not later  
5 than 1 year after the date of the enactment of this section,  
6 the Secretary shall develop and implement a least-cost  
7 plan to fully recover or replace all Restoration Flows and  
8 provide such recovered or replacement flows to those water  
9 service contractors within the Friant Division, Hidden  
10 Unit, and Buchanan Unit of the Central Valley Project  
11 that relinquished the Restoration Flows so recovered or  
12 replaced. Such a program shall not impact the water sup-  
13 ply or water rights of any entity outside the Friant Divi-

15 ley Project.

16 (g) GROUNDWATER IMPACT PLAN.—

17 (1) IN GENERAL.—Not later than 1 year after  
18 the date of the enactment of this section, the Sec-  
19 retary, in cooperation with representatives of af-  
20 fected landowners, shall develop and implement a  
21 least-cost plan to fully mitigate the impact on  
22 groundwater resources within the service area of the  
23 Friant Division, Hidden Unit, and Buchanan Unit  
24 of the Central Valley Project caused by the release  
25 of Restoration Flows.

1           (2) MITIGATION.—The mitigation required  
2           under paragraph (1) may include one or more of the  
3           following: the development of new water supplies,  
4           land retirement, and groundwater banking and re-  
5           charge projects. To the extent Restoration Flows are  
6           recovered or replaced pursuant to subsection (g) in  
7           a manner that mitigates the impact on groundwater  
8           resources caused by the release of Restoration  
9           Flows, such recovery or replacement may be consid-  
10          ered to be a part of the plan to be implemented  
11          under this subsection.

12          (h) PRIVATE RIGHTS OF ACTION.—Nothing in this  
13          section shall confer upon any person or entity a private  
14          right of action or claim for relief to interpret or enforce  
15          the provisions of this section. Any Central Valley Project  
16          long-term water service or repayment contractor within  
17          the Friant Division, Hidden Unit, or Buchanan Unit ad-  
18          versely affected by the Secretary's failure to comply with  
19          subsection (f) or (g) may bring an action against the Sec-  
20          retary for injunctive relief or damages, or both. Any action  
21          for damages shall be brought in the United States Court  
22          of Federal Claims.

23          (i) NO IMPACTS ON OTHER INTERESTS.—No Central  
24          Valley Project or other water other than San Joaquin  
25          River water impounded by or bypassed from Friant Dam

1 shall be used to implement subsection (d) unless such use  
2 is on a voluntary basis. No cost associated with the imple-  
3 mentation of this section shall be imposed directly or indi-  
4 rectly on any Central Valley Project contractor, or any  
5 other person or entity, outside the Friant Division, the  
6 Hidden Unit, or the Buchanan Unit, unless such costs are  
7 incurred on a voluntary basis. The implementation of this  
8 section shall not result directly or indirectly in any reduc-  
9 tion in water supplies or water reliability on any Central  
10 Valley Project contractor, any State Water Project con-  
11 tractor, or any other person or entity, outside the Friant  
12 Division, the Hidden Unit, or the Buchanan Unit, unless  
13 such reductions or costs are incurred on a voluntary basis.

14 (j) PRIORITY.—

15 (1) IN GENERAL.—All actions taken under this  
16 section shall be subordinate to the Secretary's use of  
17 Central Valley Project facilities to make Project  
18 water, other than water released from the Friant  
19 Dam pursuant to this section, and the Secretary's  
20 performance of the Agreement.

21 (2) DEFINITION OF AGREEMENT.—For the pur-  
22 poses of this subsection, the term "Agreement"  
23 means the Agreement of November 24, 1986, be-

4 agreement to resolve conflicts arising from that  
5 Agreement.

16 (2) Any non-Federal funds, including State  
17 cost-sharing funds, contributed to the United States  
18 for this purpose.

19 (3) Funds in the San Joaquin River Restora-  
20 tion Fund, (Public Law 111–11 section

23 **SEC. 207. NATURAL AND ARTIFICIALLY SPAWNED SPECIES.**

24 After the date of the enactment of this title, the Sec-  
25 retary shall not distinguish between natural-spawned and

1 hatchery-spawned or otherwise artificially propagated  
2 strains of a species in making any determination under  
3 the Endangered Species Act of 1973 (16 U.S.C. 1531 et  
4 seq.) that relates to any anadromous fish species present  
5 in the Sacramento and San Joaquin Rivers or their tribu-

10 **TRACTS AND ACCELERATION**  
11 **OF REPAYMENT OF CON-**  
12 **STRUCTION COSTS**

13 **SEC. 301. REPAYMENT CONTRACTS AND ACCELERATION OF**

19 with any Central Valley Project contracts entered  
20 under subsection (e) of section 9 of the Act of Au-

22 subsection (d) of section 9 of said Act (53 Stat.  
23 1195), under mutually agreeable terms and condi-  
24 tions.

1           (2) Upon request of the contractor, the Sec-  
2       retary is further authorized to convert, not later  
3       than 1 year after enactment, any Central Valley  
4       Project long-term contract entered under subsection  
5       (c)(2) of section 9 of the Act of August 4, 1939 (53  
6       Stat. 1194), to a contract under subsection (c)(1) of

24      construction costs as of January 31, 2013, as  
25      adjusted, shall be provided by the Secretary of

1 the Interior to each contractor no later than  
2 180 days after enactment;

3 (B) require that, notwithstanding sub-  
4 section (c)(2), construction costs or other cap-  
5 italized costs incurred after the effective date of  
6 the contract or not reflected in the schedule ref-  
7 erenced in subparagraph (A), and properly as-  
8 signable to such contractor, shall be repaid in  
9 not more than 5 years after notification of the  
10 allocation if such amount is a result of a collec-  
11 tive annual allocation of capital costs to the  
12 contractors exercising contract conversions  
13 under this subsection of less than \$5,000,000.  
14 If such amount is \$5,000,000 or greater, such  
15 cost shall be repaid as provided by applicable  
16 Reclamation law, provided that the reference to  
17 the amount of \$5,000,000 shall not be a prece-  
18 dent in any other context; and

19 (C) provide that power revenues will not be  
20 available to aid in repayment of construction  
21 costs allocated to irrigation under the contract.

22 (4) All contracts entered into pursuant to para-  
23 graph (2) shall—

24 (A) require the repayment in lump sum of

4 flect payments not reflected in such schedule,  
5 and properly assignable for ultimate return by  
6 the contractor, no later than January 31, 2016.  
7 An estimate of the remaining amount of con-  
8 struction costs as of January 31, 2016, as ad-  
9 justed, shall be provided by the Secretary of the  
10 Interior to each contractor no later than 180  
11 days after enactment; and

12 (B) require that, notwithstanding sub-

17 signable to such contractor, shall be repaid in  
18 not more than 5 years after notification of the  
19 allocation if such amount is a result of a collec-  
20 tive annual allocation of capital costs to the  
21 contractors exercising contract conversions  
22 under this subsection of less than \$5,000,000.  
23 If such amount is \$5,000,000 or greater, such

4 ant to subsection (a) shall be subject to adjustment fol-  
5 lowing a final cost allocation by the Secretary of the Inte-  
6 rior upon completion of the construction of the Central  
7 Valley Project. In the event that the final cost allocation  
8 indicates that the costs properly assignable to the con-  
9 tractor are greater than what has been paid by the con-  
10 tractor, the contractor shall be obligated to pay the re-  
11 maining allocated costs. The term of such additional re-  
12 payment contract shall be no less than 1 year and no more  
13 than 10 years, however, mutually agreeable provisions re-  
14 garding the rate of repayment of such amount may be de-  
15 veloped by the parties. In the event that the final cost allo-  
16 cation indicates that the costs properly assignable to the  
17 contractor are less than what the contractor has paid, the  
18 Secretary of the Interior is authorized and directed to  
19 credit such overpayment as an offset against any out-  
20 standing or future obligation of the contractor.

21           (c) APPLICABILITY OF CERTAIN PROVISIONS.—

22           (1) Notwithstanding any repayment obligation  
23 under subsection (a)(3)(B) or subsection (b), upon a

25 obligation of repayment of the construction costs as

1 provided in subsection (a)(3)(A), the ownership and  
2 full-cost pricing limitations of any provision of Fed-  
3 eral Reclamation Law shall not apply to lands in  
4 such district.

5 (2) Notwithstanding any repayment obligation  
6 under paragraph (3)(B) or paragraph (4)(B) of sub-
